### **About GSR Institute of Facial Plastic Surgery**

The GSR Institute of Facial Plastic Surgery is based at its own premises in Hyderabad. It is a 50-bedded hospital dealing exclusively with Head and Neck Defects. The Institute is equipped with two operation theaters with all day operation lists six days a week.

The division has a strong interest in cleft and craniofacial anomalies and all four sections of Cranio- maxillofacial surgeries are done here.

### **CLEFT LIP AND PALATE SURGERY**

A comprehensive cleft Institute for complete management of cleft lip and palate deformities from birth to adulthood has been initiated. This project offers treatment to 1200 patients a year. The Institute also provides Speech Therapy and Orthodontics. All procedures done to rehabilitate cleft and craniofacial anomalies are done free of charge to the patient.

### **CRANIOFACIAL SURGERY**

This Institute handles at least 50 cases a year including transcranial procedures, facial clefts, Hemi facial mircosomias, and other craniofacial disorders.

### **FACIAL PALSTIC SURGERY**

This Institute handles at least 30 cases of rhinoplasties a year with a lesser number of otoplasties, facelifts, and ancillary procedures.

### **MAXILLOFACIAL SURGERY**

This Institute handles at least 25 Orthognathic surgeries a year with a reasonable number of TMJ ankylosis release, trauma and routine Oral and Maxillofacial surgical cases.
